

SHOT BY FAKE HIGHWAYMAN.

Boys at Play on Halloween Night Accidentally Injured Companion.

Chicago, Nov. 2.—Halloween proved serious in the residence of William Hood last night. Cleveland Hood, a 13-year-old son, was shot during a game of "hold up" by Frank Wright, a boy of the same age.

Young Hood was shot just above the heart. He was taken to the hospital, where an operation was performed, and it was reported that the outcome of the wound was in doubt.

The shooting was accidental. The revolver belonging to Mr. Hood, and the boys did not look to see if it was loaded. Henry Cannon and Harold Tully, two other boys, were dressed as girls, and a street scene was acted out. There the robber steps from a dark alley and cries "Hand up, or you are dead men!"

Wright was playing the part of the robber. Hood and the masquerading girls were the victims. All went well and Hood showed the proper amount of fright when he found himself looking into the muzzle of a revolver. As he was muttering out some fanciful stage talk, his fright became a reality for the "empty" revolver was discharged and the boy sank to the floor. Wright was taken to the police station, but was released later.

PHYSICIAN HAS BEEN LOCATED.

Boston Police Have Unraveled the Suit Case Mystery.

Boston, Nov. 2.—Just before leaving his office at police headquarters Chief Inspector A. B. Wells stated that the doctor who dismembered the body of Susanna A. Geary, the suit case victim, had been located. He did not expect, however, that any arrest would be made for a day or two, intimating that the police were awaiting something more definite from Norris Nathan, the lover of the girl.

The theory of the police regarding the whole affair, in which the most serious charge can only be manslaughter, is that Miss Geary went to a woman and submitted to an illegal operation. The operation was not a success, but before the girl died a male physician was called and he attempted to save the girl's life by a second operation for peritonitis. Miss Geary died, the doctor then dismembered the body and distributed portions of it in two suit cases, which were subsequently found. The charge against the woman can only be one of manslaughter, while, according to Superintendent Peirce, of the local force, it will be difficult to bring any charge against Nathan unless he should be accused of concealing a crime.

Neuralgia Pains.

Rheumatism, lumbago and sciatic pains yield to the penetrating influence of Ballard's Snow Liniment. It penetrates to the nerves and bones, and being absorbed into the blood its healing properties are conveyed to every part of the body, and effect some wonderful cures. 25c, 50c and \$1. Sold by W. M. Johnson.

Indian Remedies.

The Indian pharmacopoeia comprised thoroughwort, spurge and Indian hemp, used as emetics; the bark of the horse chestnut and butternut, used as cathartics. They were also acquainted with many poisons, most of which were used on their weapons. For asthma they employed tobacco and sassafras, for coughs slippery elm, for dropsy the wild gooseberry, for wounds powdered puff balls. They treated boils with onion poultices.

Somewhat Different.

"This question whether a word should have its adverbial or its adjective form seems to me to have little to do with the sense. Now, what is the difference between talking loud and talking loudly?"

"No difference," replied the pedagogical friend. "But look here: For a large fee you give legal advice freely, but you don't give it free. I think that will retain you for awhile."

A Noncombatant.

"I didn't know you were in the choir. What's your position there?"

Neutral.

"How do you mean?"

"I don't side with either faction."—Philadelphia Ledger.

FIDDLERS AND DRUMMERS.

The Two Classes of Insects That Produce Audible Sounds.

Insects that produce sounds audible to human ears have been roughly divided into two classes—fiddlers and drummers. The grasshopper is a fiddler and makes music by scraping its fore wings against the rows of spinellike teeth that ornament its thighs. The katydid also plays an entomological fiddle. It produces its notes by rubbing the inner side of the hind legs over the front wings.

The locust, on the other hand, is a drummer, and a loud one too. His drum is formed by a membrane situated at the base of the fore wing, and he can make a forest ring with it. The cicada, or seventeen year locust, carries a drum at the base of the abdomen and makes with it a noise that seems to be quite as terrifying in the insect world as that produced by the gorilla pounding its resounding chest is among wild beasts. It is said that the cicada sometimes frightens away its enemies with the rattle of its drum.

There are other drumming insects which make good music, but the violinists, after all, carry off the palm, for the great insect soloist, the cricket, is a fiddler.

The Month of August.

Few persons know why August has thirty-one days. July, which takes its name from Julius Caesar, has thirty-one days, and August, who completed the calendar, declined to submit to the indignity of seeing his own month branded with the inferiority of one day less. The astronomers had accordingly to reshuffle the lunar cards, and, after some perplexity, hit upon the expedient of shearing twenty-four hours from February's glory in order that August might face the world on a footing of perfect equality with July.

Man's Unreasonableness

Is often as great as woman's. But Thos. S. Austin, manager of The Republican of Leavenworth, Ind., was not unreasonable, when he refused to allow the doctors to operate on his wife for female trouble. "Instead," he says, "we concluded to try Electric Bitters. My wife was then so sick she could hardly leave her bed, and five (5) physicians had failed to relieve her. After taking Electric Bitters she was perfectly cured, and can now perform all her household duties." Guaranteed by all druggists. Price 50c.
